

**This really is amazing!  
I think you'll enjoy it.**

**This is not a test - just a  
phenomenon.**

**All readings are explained.**

Read out loud the text inside the triangle below.

A  
BIRD  
IN THE  
THE BUSH

More than likely you said,

"A bird in the bush"

and.....

if this IS what YOU said, then you  
failed to see that the word THE is  
repeated twice!

Sorry, look again.

Next, let's play with some  
words.

What do you see?

In black you can read the word  
GOOD, in white the word EVIL  
(inside each black letter is a white  
letter).

It's all very physiological too,  
because it visualize the concept  
that good can't exist without evil  
(or the absence of good is evil ).

Now, what do you see?

You may not see it at first, but  
the white spaces read the word  
optical, the blue landscape  
reads the word illusion.

Look again!

Can you see why this painting  
is called an optical illusion?

What do you see here ?

This one is quite tricky!

The word TEACH reflects as  
LEARN.

Last one.....

What do you see?

You probably read the word  
ME in brown, but.....when  
you look through ME you will  
see YOU!

Do you need to look again?

## *Test Your Brain.....*

This is really cool.

The second one is amazing so please read all the way though.

**ALZHEIMERS' EYE TEST**

Count every " F" in the  
following text:

FINISHED FILES ARE THE  
RESULT OF YEARS OF  
SCIENTIFIC STUDY  
COMBINED WITH  
THE EXPERIENCE OF  
YEARS...

(SEE BELOW)

## HOW MANY ?

WRONG, THERE ARE 6 -- no joke.

READ IT AGAIN !

Really, go Back and Try to find the 6 F's  
before you scroll down.

The reasoning behind is further down.

The brain cannot process  
"OF".

Incredible or what? Go back and  
look again!!

Anyone who counts all 6 "F's" on the  
first go is a genius.

Three is normal, four is quite rare.

Send this to your friends.

It will drive them crazy.!  
And keep them occupied  
For several minutes..!
